Answer Dev Academy UI Technical Test - Vue

⚠ **Do not fork** this repository. Download a copy and push to your own repository. ⚠

This part of the technical test has 4 steps.

- Step 4 : `PeopleList.vue`
- Step 5 : `PeopleList.vue`
- Step 6 : `PeopleList.vue`
- Step 7 : `people-api.ts`

Each of the steps will have instructions as to what is expected to be done. Do not remove the `TODO` instructions.

Requirements

- Node.js - https://nodejs.org/en/download/
- Visual Studio Code - https://code.visualstudio.com
- Vue CLI - https://cli.vuejs.org/#getting-started

Instructions

- Run `npm install` to restore the dependencies.
- Run `npm serve` to serve the UI. It should be available on http://localhost:8080
- Open the project with your preferred IDE or VS Code.
- Search for the `TODO` items and work your way through the steps.

Submission

Before submission, make sure to remove the following folders:

- `node_modules`
- `dist`
